

## ***Remembering When* Group Presentation— Preventing Fires and Falls in the Home**

A City of Wauwatosa Fire Education Coordinator and a City of Wauwatosa Public Health Nurse are available to provide an engaging group education program about fire safety and fall prevention. The hour long program is targeted towards older adults and involves a projected presentation, along with a demonstration of some of the items discussed. There is no cost for the program and can be tailored for a large or small group.

This program is part of the National Fire Protection Association, *Remembering When*. The City of Wauwatosa was selected for a training scholarship to promote this national program.

To schedule a free group presentation, call Lori Murphy, Fire Education Coordinator at 414-471-8457.
