

City of Wauwatosa Health Department

Sharps Collection Locations

The State of Wisconsin Department of Natural Resources has rules that pertain to individuals who use syringes, lancets or other sharps in their homes. The rules are meant to protect your family, neighborhood children, garbage haulers, recycling processors and others who may come into contact with your garbage.

- Sharps may NOT be placed with your regular garbage or recycling pickup.
- Sharps should be collected in an approved sharps container and taken to a sharps collection station for appropriate disposal. Do not place sharps in coffee cans, milk or detergent bottles.

Fee to dispose of sharps containers may apply and may vary by location.

Information is subject to change. Contact the establishment for more information.

Below are locations in Wauwatosa that accept sharps containers. For additional locations throughout the area visit <http://dnr.wi.gov/topic/healthwaste>

All Aurora Pharmacies accept sharps containers (fee may apply for non-Aurora customers).
